

Fulfill your need for speed in the comfort and safety of home.

Get in, buckle up, start your engine and race like a pro.

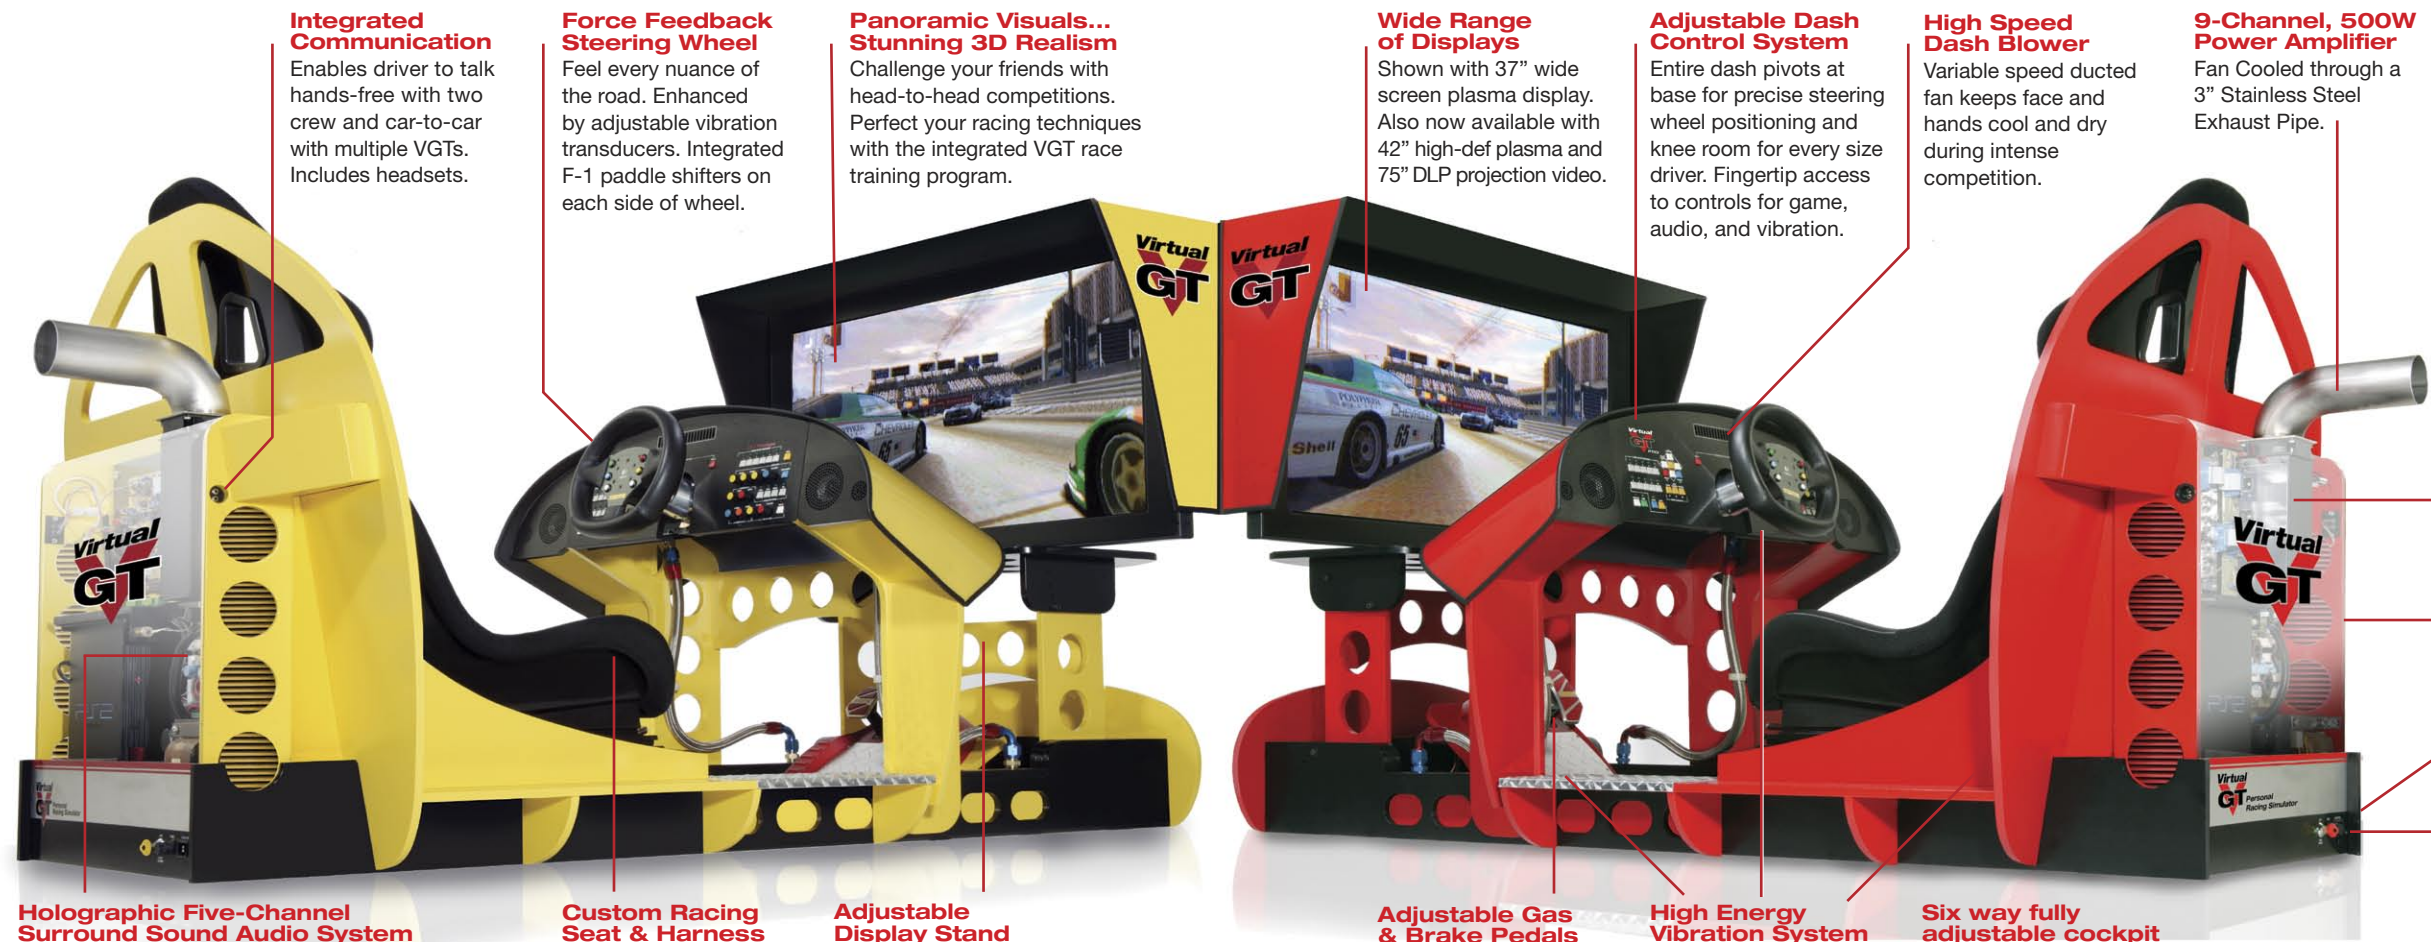

VirtualGT™, the first and only authentic racing simulator designed for personal use.

What makes VGT different from all other simulators? High-energy 3-dimensional surround sound, intense vibration, accurate force-feedback steering, authentic race seating, and amazing video, all integrated into a visually stunning, self contained chassis. At its core is a sophisticated computerized control system that makes VGT as easy to use as it is addictive to drive. You can be racing your friends head-to-head within a few hours after delivery.

Available with Sony's famous Gran Turismo™ software running on Sony PlayStation®, or a suite of the best auto racing software running on our integrated high performance PC computer. The PC software covers almost every racing series from F1 to Rally, and is preinstalled and preconfigured on dual removable drives. This software is updated with new cars and tracks each quarter.

Cars include race tuned Asian, American, and Euro sports cars, open wheel cars from trainer to F1, off-road rally, and prototypes. Race on real tracks against up to 50 computer controlled cars, or race other VGT drivers in the same room or over the Internet.

A pair of VirtualGTs make a unique and incredibly entertaining addition to any game room or garage. They will provide years of enjoyment for both you, your family and friends who share your passion for driving high performance automobiles.

Holographic Five-Channel Surround Sound Audio System

Four satellite speakers and subwoofer put you inside a 3D audio bubble comparable to the best home theater systems. Capable of 100dB SPL to accurately recreate the sound of a 1000 HP engine, tires, wind, and other cars around you. Under-seat subwoofer for intense engine sound and vibration.

Custom Racing Seat & Harness

Extra width, padded for race car look with armchair comfort. Integrated 4-point harness system for maximum contact with seat vibration.

Adjustable Display Stand

Full range of monitors, adjustable height and distance. Non-glare hood.

Adjustable Gas & Brake Pedals

Move fore and aft; rotate for angular adjustment.

High Energy Vibration System

Powerful transducers on pedals, dash, seat bottom and seat back, inject the sensation of racing into your feet, hands, and torso.

Six way fully adjustable cockpit

Unique pivoting dash assembly automatically raises steering wheel adding knee clearance as it pivots forward. Together with the sliding seat and pedals, allows a 7-foot man to race comfortably for hours.

Integrated Communication
Enables driver to talk hands-free with two crew and car-to-car with multiple VGTs. Includes headsets.

Force Feedback Steering Wheel
Feel every nuance of the road. Enhanced by adjustable vibration transducers. Integrated F-1 paddle shifters on each side of wheel.

Panoramic Visuals... Stunning 3D Realism
Challenge your friends with head-to-head competitions. Perfect your racing techniques with the integrated VGT race training program.

Wide Range of Displays
Shown with 37" wide screen plasma display. Also now available with 42" high-def plasma and 75" DLP projection video.

Adjustable Dash Control System
Entire dash pivots at base for precise steering wheel positioning and knee room for every size driver. Fingertip access to controls for game, audio, and vibration.

High Speed Dash Blower
Variable speed ducted fan keeps face and hands cool and dry during intense competition.

9-Channel, 500W Power Amplifier
Fan Cooled through a 3" Stainless Steel Exhaust Pipe.

Obsessively engineered for realism and ease of use... Press one button to recall your favorite car and track combinations, touch another button and apply your preferred audio and vibration feedback levels. Formula 1 style paddle shifters provide split second gear changes for maximum control.

Software Controls
Recall your favorite ten car and track combinations.

Hardware Controls
Recall audio and sensory levels from six presets.

Custom Audio Processor
Converts 2-channel stereo game sound into amazingly accurate surround sound. Enhanced vibration. Adjustable subwoofer. Six memories to store your favorite setups.

Electronics Rack (E-Rack)
Fully connectorized. Easily removable for upgrade or repair, Protected by clear polycarbonate cover.

Integrated Suspension System
Four corner adjustable independent suspension decouples the chassis from the floor giving VGT it's own energy.

Key Switch for Security
Master power controlled by removable key. Prevents unauthorized use.
